The NIKO S.r.l. it is also able to supply any type of electrical and instrumental material also availing itself of external collaborators with proven and many years of experience in the electrical, electronic and automation sectors.

ELECTRIAL PANEL WIRING GENOVA (GE)

ELECTRIAL PANEL WIRING GENOVA (GE)

The company structure of NIKO SRL has modern technology and computerized management of all production facilities, respecting the environment.

Recently the NIKO S.r.l. has undertaken a working collaboration alongside:

ETS ELECTRIX SBARRAFUOCO TECHNOLOGIES Italian company leader in the development, production and sale of a complete range of products in the sector of passive fire compartment.

Our collaboration with ETS® also offers customers the installation service specialized for the installation of their products, with direct and highly qualified personnel, managing to propose innovative solutions and resolutions of shipbuilding problems, always in accordance with the new Regulations Europeans in the field of fire resistance. With the "turnkey" service, ETS® and NIKO guarantee customers the complete management of the contract, from supply with installation to the management and completion of the aspects related to the necessary documentation (eg mapping of compartments, certifications, etc.) for the authorization procedures of the competent bodies (eg VV.FF.)
